

MONTANA MINING 2025

The Montana Mining Association is excited to announce the return of our annual Montana Mining Magazine, 2025! We have partnered with the publishers of Mining the West Magazine and Amplified Mining Agency to bring you the very latest in news and information impacting mining operators in Montana. By advertising in the magazine, you are supporting the association as a portion of the revenue goes directly to the association to help its efforts in supporting our membership and the industry. The magazine will publish in January with a follow-up edition by our annual meeting, held in July. 3k copies will be distributed throughout Montana and the greater region in high mining concentrated areas, including Northern Nevada.

A digital version of the magazine will also be viewable throughout the year on the following regional websites: miningthewest.com, missoulian.com, mtstandard.com, helenair.com, billingsgazette.com
